

## Web-based medical gas data management portal

**Real-time plant and alarm monitoring 24 hours a day, 7 days a week**

**Any device, any time, anywhere**

K'nect holds all your medical gas data in one convenient cloud-based system

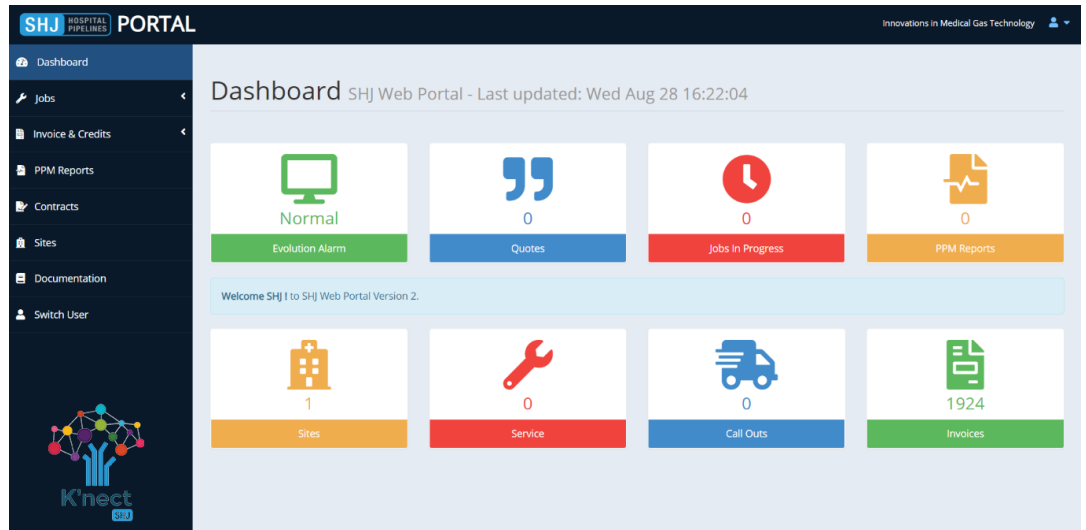

Now all the information you need to manage your MGPS and prove compliance is at your fingertips

K'nect is the first and most advanced data portal in the medical gas industry. Fully bespoke for each customer, it is tailored to your specific MGPS and site configuration. The encrypted data is available 24 hours a day from any browser, and helps you prove compliance with statutory regulations quickly and easily.

### Documentation

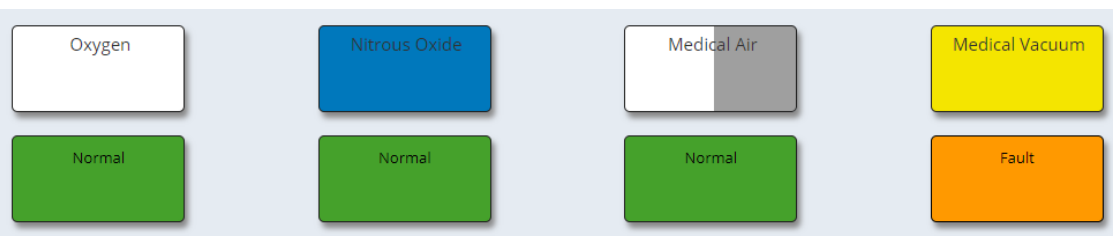

Depending on your contract, this will include:

- ✓ Comprehensive details of Planned Preventative Maintenance (PPM) visits
- ✓ Faults logged during past service calls and due dates of future services
- ✓ Invoices and quotes
- ✓ Asset register
- ✓ KPI compliance data
- ✓ Plant diagrams
- ✓ Safety certificates
- ✓ Insurance certificates
- ✓ Permits to work

### Real-Time Data

- ✓ Real time, site-by-site plant and alarm monitoring
- ✓ At-a-glance RAG rating for each item of plant
- ✓ Use K'nect to manage FLO<sub>2</sub>—SHJ's new oxygen flow meter and line pressure monitoring and alert service

Description	Date	Time	Status
OXYGEN VIE Refill Liquid	23/04/2021	14:37	END
OXYGEN VIE Refill Liquid	23/04/2021	14:37	ALM
OXYGEN VIE Refill Liquid	23/04/2021	14:35	END
OXYGEN VIE Refill Liquid	23/04/2021	14:35	ALM

K'nect is free to all customers with a maintenance contract, up to 5 users.
