

## SERVICE ENGINEER

<b>Salary</b>	£30,000 - £40,000 /annum (dependent on experience) plus a pension. Annual leave: 21 days plus bank holidays, plus 2 Wellbeing Days. A Company Van is also provided.
<b>Location</b>	Head office: Chesham, Buckinghamshire. Nationwide role.
<b>Company</b>	SHJ Medical Gas Specialists is a leading supplier of medical gas pipelines, solutions and services, and a market leader in remote monitoring and energy saving technologies. We are committed to the highest standards of care and support for our customers and invest heavily in R&D to remain at the forefront of our industry.
<b>Job description</b>	<p>We are seeking a Service Engineer to assist us with our all-inclusive medical gas planning, design, maintenance and installation service. The successful applicant will be involved in preventative and reactive maintenance, playing a key role in service delivery and improvements.</p> <p>This is a customer-focused role, where the successful applicant will service and maintain a wide variety of medical gas plant and equipment within NHS and private hospitals in the UK.</p> <p>The hours of the role are Monday to Friday and participation on an on-call rota.</p>
<b>Duties and responsibilities</b>	<p>Some of the duties and responsibilities associated with this role include:</p> <ul style="list-style-type: none"><li>• Perform service and PPM checks, tests and inspections in accordance with industry standards and hospital requirements.</li><li>• Identify and document items which have changed since previous inspections.</li><li>• Identify and report electrical faults.</li><li>• Identify and report changes in the condition of plant and/or plant rooms.</li><li>• Report any major issues that may/will affect medical gas supply.</li><li>• Submitting job summary and maintenance reports.</li><li>• Maintaining van stocks.</li><li>• Undertake a full range of servicing and reactive maintenance tasks.</li></ul>
<b>Experience required</b>	<p>To be considered for this role you will have an engineering background, with a minimum of 2 years as a Service Engineer, or time-served apprenticeship (preferably multiskilled). Competent Person (MGPS) status will be an advantage.</p> <p>A knowledge of servicing medical gas systems, compressor maintenance and repairs, and knowledge of compressors, vacuum pumps, gas manifolds, gas outlets, alarms and pressure equipment will be desired, but not essential.</p> <p>Also required:</p> <ul style="list-style-type: none"><li>• A proactive approach to health and safety.</li><li>• Working knowledge of CMMS.</li></ul>

- Ability to prioritise and identify solutions .
- A positive can-do attitude and problem-solving mindset.
- Self-motivated, disciplined and methodical in approach.
- Ability to build positive relationships with customers.
- A clean driving licence.
