

Project Engineer (Mechanical)

Location: Chesham, Buckinghamshire

Salary / Rate: £35,000 - £45,000 / annum plus Pension

SHJ is a leading supplier of medical and laboratory gas pipelines, solutions, and services, and a market leader in remote monitoring and energy-saving technologies. We are committed to delivering the highest standards of care and support to our customers and continue to invest heavily in R&D to stay at the forefront of our industry.

This is an exciting opportunity to be part of a forward-thinking company where your engineering skills will directly support the NHS and other essential services. We are looking for a **driven and detail-oriented Engineering Estimator** to join our growing Installation team.

Your Role:

As a Project Engineer, you will support the planning, execution, and delivery of medical and laboratory gas pipeline installation projects, ensuring quality, compliance, and customer satisfaction from start to finish.

Key Responsibilities:

- Coordinate engineering activities across installation projects
- Prepare project documentation including technical reports, drawings, schedules, RAMS and programmes of works
- Management of labour requirements on site
- Liaise with clients, contractors, and internal departments to ensure smooth project delivery
- Monitor project progress, manage risks, and resolve technical issues
- Assist with procurement and cost control
- Conduct site visits to oversee installations and ensure compliance with specifications
- Maintain accurate records and update our Protean project system
- Stay up to date with industry standards and support R&D initiatives

Qualifications:

- Degree in Mechanical, Electrical, or Building Services Engineering (or equivalent experience)

Skills and Experience:

- Strong project coordination and problem-solving skills
- Familiarity with healthcare/NHS environments is an advantage
- Knowledge of mechanical/electrical systems and technical documentation
- Proficient in Microsoft Office (Word, Excel, Project); CAD skills beneficial
- Excellent verbal and written communication skills

Personal Qualities:

- Self-motivated and highly organised
- Comfortable managing multiple projects
- A team player with strong interpersonal skills
- Customer-focused with a commitment to quality and safety
- Flexible, with a practical and hands-on approach

SHJ is committed to creating a diverse and inclusive workplace and is proud to be an equal opportunity employer. We welcome applications from all backgrounds and experiences.

To apply for this position, please email **ying.scopes@shj.co.uk** with your CV and a cover letter explaining why you think you would be suitable for this role.
