

CASE STUDY:

SHJ INSTALLS LABORATORY GRADE AIR PLANT AT EUROPE'S LARGEST SCIENCE PARK

We're thrilled to be working alongside NG Bailey and Canary Wharf Contractors on the landmark One North Quay development in Canary Wharf, set to become one of Europe's largest and most technologically advanced commercial speculative life sciences buildings.

SHJ is currently delivering Phase 1 of the project, with our scope including:

- Laboratory Grade Air Plant
- Gas Detection Systems
- SIVL Super Insulated Vacuum Line, Liquid Nitrogen Line

We're proud to be contributing our specialist laboratory gas expertise to such an innovative and significant development.

With Phase 1 underway, we look forward to continuing our successful partnership with NG Bailey and Canary Wharf Contractors and hope to support the project as it progresses through Phases 2 to 5.
